

the Natural Builders

Live Edge/Hatch Gallery -Plaster

The completed gallery serves to display art and custom furniture for sale. Natural earth tones compliment a number of show types.

This earthen plaster, for Hatch Art Gallery and Live Edge

Furniture offers fine art works by artists such as W. Wiley (left) and Hung Liu (right). The showroom features custom furniture based on a Japanese ascetic. The plaster transforms the light entering through rows of shoji window screens along both walls.

The walls were prepared with a coat of natural glue and sand

The Plaster was formulated from local clay and sand and contains chopped straw.

Project completed in 2008
